

Video Self-Portrait Brainstorm Sheet

Fill out this chart (and the chart on the reverse side of this page) to help you brainstorm relevant and MEANINGFUL images and sound effects to help you figure out how you will make your audience understand and feel your story, whatever that might be

Describe your story/concept (in bullet points or in a paragraph)

--

Try and figure out what kinds of images/sounds you will record by reading what you wrote on the front of the page and thinking of visual and auditory ways to represent them

You don't have to include everything that you write down, nor do you have to fill out every section if it isn't relevant to the kind of story you are trying to tell. However, the more detailed you are about what you could include, the more ideas you will have to work with, and the easier it will be to organize your thoughts to make your video.

Relevant Subject Matter	How you might represent it through sound	How you might represent it through Video/Still Images	Can/will you record this yourself?	
			Yes	No
